

## **MEDIA RELEASE**

11 September 2014

### **American company DSX Access Systems announces Seadan Security & Electronics as exclusive distributor of its Access Control products in Australasia and Pacific Rim.**

Based in Dallas Houston USA, DSX expands its global network by recently forming a partnership with Seadan Security & Electronics. DSX manufactures Integrated Solutions for the Access Control and Security Industries.

The partnership and exclusive distribution agreement allows Seadan to actively promote DSX's superior and integrated access control products to the Australian market, lifting the game in Access Control. Seadan will utilise its extensive branch network and regional distribution centres to sell and distribute these products helping customers protect their personnel and property from unwanted visitors or intruders.

"This alliance with DSX brings greater depth and wider reach to the most innovative range of access control solutions Australia has ever encountered" says Managing Director, Ian Harris of Seadan. "Our customers will appreciate the sophisticated and revolutionary access control systems that will provide security like never before".

DSX Access Systems is one of the most respected names in the American security industry because of its concentration on providing products and service that exemplify quality, reliability and integrity. DSX also integrates with Video Insight, one of the CCTV product Seadan promotes. All this coupled with Seadan's uncompromising dedication and commitment to product support, this partnership is a *secure* thing.

Seadan Security & Electronics is a leading Australian wholesale supplier of security system solutions, including access control. Seadan is pleased to be appointed the exclusive supplier of DSX and their products are on display in their Melbourne showrooms.
